We also treated 4 July birthday celebrants to a Mani-Pedi,,, is yours coming?

## YOU DON'T HAVE TO BREAK THE BANK TO BE FABULOUS...

If you are not availing any promotion, try and resist taking advantage of this:

- 15% discount for 6 months from your first visit
- Free change polish within 7 days from your last Mani or Spa Pedi treatment
- Express back massage while drying your nails at our drying bar
- Spa Pedicure for the price less than the normal pedicure cost

### "We only offer Spa pedicure at a price less than your normal pedicure cost"

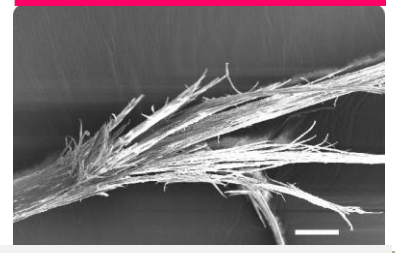

True to our word, we really treat your feet to a Spa every single time you come and book for a Pedi. Don't you wish your whole body goes through the same pampering?

A therapeutic footbath with mood scents,,, dead and aged skins are filed off by our specialist, mildly but effectively. Surely you noticed the remnants on the floor, icky, but it's better for it to be on the floor than on your feet. To pamper you even more, an all natural masque is applied and your feet is further exfoliated and buffed with precise movements that ensure your feet is really fresh and clean when you leave Pink doors.

To put that spring back on your steps, a quick relaxing massage is done,,, and since you are that special, you even get a quick back massage while you dry your nails at our bar. If this isn't a Spa Pedicure treat, I don't know what is.

Some clients want their pedicure done in a jiff, with a Spa, your feet needs more time to be pampered. However, as promised, our service becomes personalized as time goes by. Your preference is our specialist's priority. You know how accommodating they are...

## SPLIT ENDS?

1. Get a haircut. Do not do this yourself; go to a professional.
2. Towel-dry or air-dry your hair as much as possible before styling.
3. Condition your hair regularly. If you can get to a salon to have this done professionally, great. If not, simply leaving in your regular conditioner for 30 minutes once a week will help your hair feel softer.
4. Apply a glosser before styling
5. Avoid hair color and permanents until your hair is repaired. tough, but the longer you can hold out, the longer you can grow healthier hair.

So...what are you waiting for?

### Guilty Pleasure / Sweeter Weekends

Why don't we run this on slow hours like others, consider it as a pulling factor? Firstly, our clients are all smart ☺. Secondly, it is a treat... what is the point of having treats when there is no one to take advantage of it, right? Sweet and Simple.

We've also noticed some clients don't have a sweet tooth, so we will add croissants or canapés, now and again. I can almost hear it, yes... we will try to be conscious of the calories.

Simple and delicious homemade cakes, cupcakes, cookies and other treats for birthdays, hen dos, parties and other special occasions.

Everything is baked fresh and made entirely from scratch using only the best ingredients.
