Pink focus

YOU DON'T HAVE TO BREAK THE BANK TO BE FABULOUS...

“Why Pink, nails and more barely has pink in it?”

We had our soft opening on March 23 and clients are quite surprise to see no “pink” colour aside from the Logo, and obviously... the nail polishes.

We knew it will be the question most asked and the answer is quite simple.

Pink is not really just about the colour, it is the meaning behind all of us. There is no better way to symbolize our strength, our unity, our heart, our love of beauty, the very pinnacle of anything that is important to us, the whole idea of femininity, but **Pink**.

We are all quintessentially **PINK..**

Due to popular demand, we have since added pink pillows, pink towels and more pink polishes... in time, we will add more pink as we go along

Sunday - Thursday
1:00 PM – 10:00 PM

Tuesday – Temporary Off Day

Home Service

There are ladies, hubbies, partners who wish to have their treatments at home, we understand, **it is comfortable**. There are mummies like me who have kids to look after; I'm a mother of two cute boys (sometimes they transform into monkeys), I know home service **is very convenient**.

If schedule permits, we will come at 6:30PM-9:00 PM on weekdays & 10:00AM-8:00 PM on weekends. We will bring the whole enchilada to create the ambience (candles, aromatic oils, towels, tools and even the massage bed)

Please note that promotions and discounts will not apply and an additional +30% is levied on treatments for men, even with that, we are still undeniably reasonable.

COFFEE

Give your body a wake-up call

Cellulite is an unfortunate reality, thank goodness we have **CAFFEINE!!!**

It has been discovered that caffeine temporarily reduces cellulites on prone areas, thus, our GOURMET COFFEE BODY EXFOLIATION.

Our specially formulated coffee-enriched body scrub and Vangie's cellulite massage technique will not only remove your skin's dead cells, restore suppleness and improve your skin's texture, it will also stimulate circulation of your underlying skin layers, distribute clusters of fat and improve the appearance of "orange skin"
